

TRAVELODGE RESORT DARWIN

The recently refurbished Travelodge Resort Darwin is an urban oasis in the heart of Darwin's CBD, offering great accommodation for leisure and business travellers looking to enjoy the absolute best of the tropical north.

Designed around lush resort-style pools and a waterfall, each of the hotel's 168 accommodation rooms and 32 self-contained townhouses has a fresh new design scheme with brand new TFE Dreamcatcher beds by Sleepmaker, Samsung smart TVs and rainfall shower heads.

TFE Hotels' Cluster General Manager for Darwin, Sid Bhatia, said the refurbishment came just as Trip Advisor announced their Top 25 emerging destinations for

2020 – with Darwin the only Australian city to make the cut. Bhatia says, Travelodge's new-look rooms capture the essence of the Top End, whilst delivering a scheme that balances modernity with the relaxed tropical resort experience that Travelodge Darwin is renowned for. "The refurbishment gave us the opportunity to support local businesses by sourcing local goods and equipment, and by using local trades and labour," Mr Bhatia said. "Importantly, we also donated furnishings, fixtures, whitegoods and TVs to help benefit local community groups, and recycled where possible."

It was important for the new-look rooms to encompass the relaxed experience of the top end for their guests whilst having the most current technology for the guests to enjoy within their rooms. Yardley Hospitality supplied Samsung AJ690 Series 49" TVs providing guests with a brilliant UHD display that provides brilliant picture quality and easy access to guests' favourite entertainment during their stay.

Sid Bhatia says, Yardley were very knowledgeable about their products and provided excellent service throughout the selection and installation process. "The Samsung AJ690 Series has been very well received by our guests," Mr Bhatia said.

With its recent facelift, Travelodge Resort Darwin is a small slice of paradise in the heart of Darwin city, centrally located close to all of Darwin's key attractions. A great location to stay on your next visit to Darwin.
