MINIBARS

PIONEERING THE HOTEL INDUSTRY AGAIN.

GIVE YOUR GUESTS AN UNFORGETTABLE STAY

You will find more Dometic minibars and safes than any other make in first-class hotels across the world. Why? Know-how accumulated over 50 years, a track record of innovation as well as leading design solutions are the three main reasons.

The top of the line new Dometic HiPro Evolution and Alpha range minibars are developed with your business experience in mind. A sustainable minibar is a smart minibar. The new HiPro Alpha and Evolution range is just that. Boasting precise temperature control, world class efficiency and the best minibar cooling capacity, the premium Dometic HiPro range ensures absorption technology checks in for a clean, sustainable future in your hotel.

NEW DOMETIC HIPRO MINIBARS

The world's best minibars

The state-of-the-art design of Dometic HiPro will help you create a premium in-room feeling. With sleek design, elegant illumination and crystal clear doors, invite your guests to treat themselves to something special.

Sustainably checking in

Sustainability means doing more with less. It's a philosophy we put into action with an outstanding energy efficient minibar range on the market. The all new HiPro range delivers more powerful cooling with up to 40% less energy consumption, making a visible difference OPEX for hotel owners.

Read more on this on p.13

DOMETIC DRAWER MINIBARS

Unique design, outstanding construction

Our drawer minibars are a class of their own in terms of design, size and functionality. Efficient cooling, convenient slide-out access.

Read more on this on p.18

DOMETIC MINIBARS

Always at your service

Premium can't be measured. It's all about the first impression, elegant design, and the silence that your guests appreciate. What can be measured is efficiency. With improved cooling performance and up to 40 % lower energy consumption*, it's clear to see why the HiPro range is considered the world's best minibar. After more than 50 years in the hotel business and 6 million installed units, we're proud to say that we're pioneering the hotel industry. Again.

1. COST REDUCTION
The new HiPro offers best-in-class energy efficiency that will reduce operational costs.

2. SUSTAINABILITY
We work hard to achieve even lower footprints within manufacturing as well as energy consumption.

PIONEERING THE HOTEL INDUSTRY. AGAIN.
We believe in sustainable innovation for a better guest experience.

3. GUEST EXPERIENCE
HiPro will not only deliver premium cooling performance – it is also an attractive and sales promoting feature in the guest room.

4. STRONG PARTNERSHIP
After more than 50 years in the hotel business we have a strong promise to ensure care free maintenance.

*Compared with equivalent previous models.

SUSTAINABLE MINIBARS FOR A CLEAN FUTURE

We are committed to driving sustainability in our field. It is a commitment that involves every part of our products' life cycles. From using energy-efficient production methods and recyclable materials, to enabling our customers to work more efficiently and sustainably – with smart, durable products that last longer.

- All our cooling technologies (absorption and compressor) meet the most ambitious Energy Efficiency Index
- Resource efficiency during the entire life cycle
- Up to -30% energy consumption achieved compared to Ecoline Absorption RH models
- Up to -15% energy consumption achieved compared to HiPro models
- Up to -40% energy consumption achieved compared to Ecoline CL models

AT HOME IN THOUSANDS OF HOTELS

Over the last 50 years, Dometic has supplied minibars to hotels and cruise lines around the world. Today, we are the market leader. In addition to cooling solutions, we provide a range of tough and reliable safes.

Dometic is the world's leading supplier of minibars to the hotel industry. And it is not only the most luxurious hotels in the world that come knocking on our door but also hotels of every star rating. For the past 50 years, there have been more than 6 million minibars manufactured by Dometic installed in hotel rooms around the world.

WE DEVELOPED HIPRO WITH HOTEL GUESTS IN MIND

A well-stocked minibar is an expected and appreciated hotel room feature for well-travelled hotel guests. Let's have a deeper look at some outstanding features we offer to the market with the all-new HiPro minibar generation:

1

Lower energy consumption

Dometic's new HiPro range will reduce energy consumption by up to 40%.

2

Premium guest experience

New HiPro will be an attractive and sales-promoting feature in the guest room.

3

Improved cooling power

Improved cooling capabilities with updated and optimised functionality.

4

A strong partner

With more than 50 years of experience and more than 6 million installed units; we are a proven partner.

A sustainable minibar is a smart minibar. The new Dometic HiPro range is just that. It's also more efficient with improved cooling and up to 40% less energy consumption. After more than 50 years in the hotel business and 6 million installed units, we're proud to say that we're pioneering the hotel industry. Again.

Many business travellers are constantly on the move living a suitcase life. Most days represent hard work with long hours – arriving late to the room preparing for the next day's meeting while burning the midnight oil. That's why the minibar is a much appreciated feature offering cold beverages and energising snacks. For the leisure tourist, the hotel minibar is an opportunity to enjoy a cold beverage at the late arrival check-in, after a long city excursion and while getting ready for a fun night out – or perhaps waking up with a need to quench the thirst.

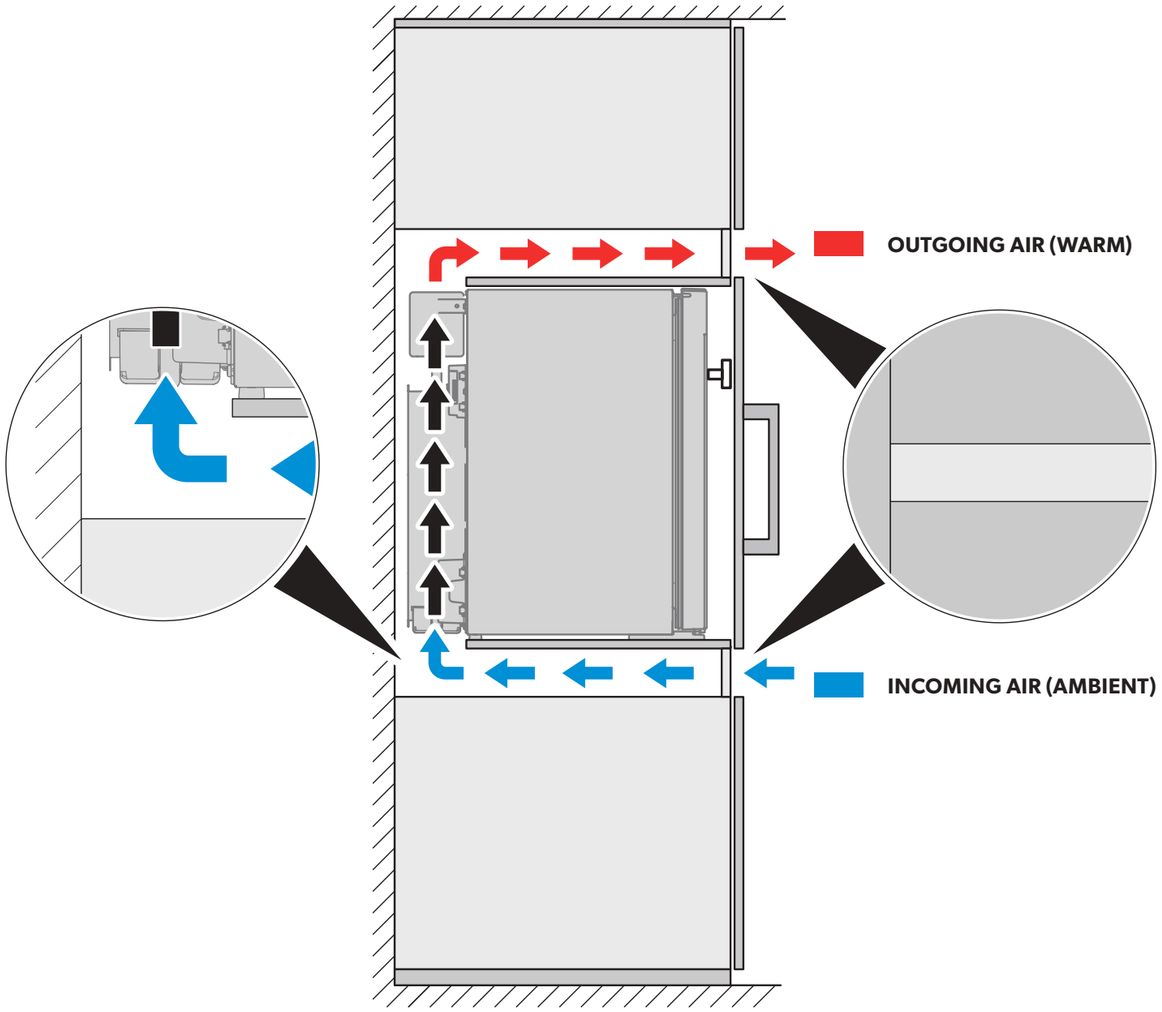
F Version: Door with plain front allowing the designer and furniture manufacturer to complete the door finish with a custom front panel based on our specifications (dimensions/ thickness/weight)

VENTILATION GUIDELINE

To ensure optimum cooling performance with minimum energy consumption, several basic principles need to be followed when installing a minibar. The heat which the cooling unit extracts from the refrigerator interior is emitted at the back of the minibar. There must be sufficient ventilation here to prevent a build-up of heat.

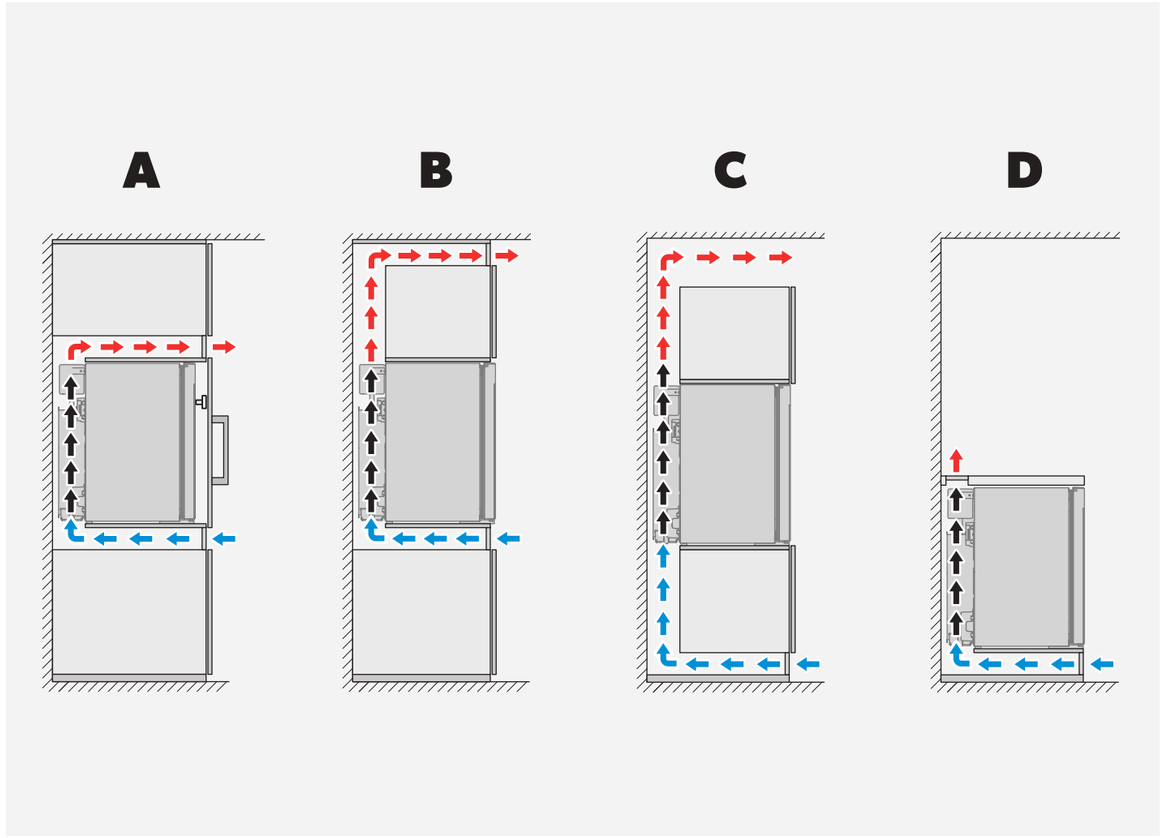
The free ventilation space for the new Hipro Absorption and Compressor for incoming air should be at least 150 cm² and outgoing air at least 200 cm², incoming air should be at least 150 cm² and outgoing air at least 200 cm². The distance from the rear of the minibar to the rear wall of the furniture must be at least 2 cm. When installing the minibar, ensure that it is standing on a stable and horizontal surface, and not directly near a heat source.



THINGS TO NOTE WHEN INSTALLING A BUILT-IN MINIBAR

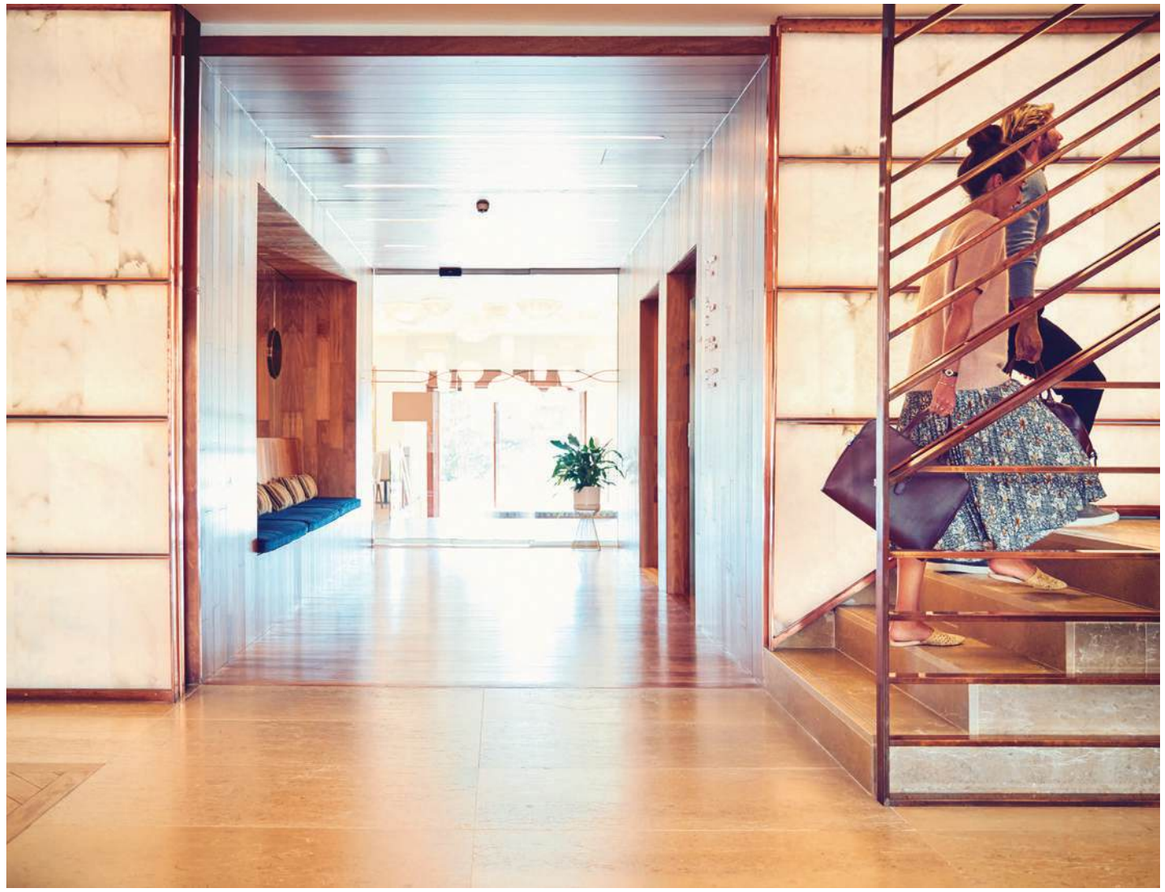
- The minibar must be placed on a surface that is level in both directions
- There should be a 2 cm clearance to the wall
- Ventilation must be provided as shown in the drawings below (A, B, C or D)
- The entire cooling unit should protrude into the ventilation duct as shown below
- Air passing through the duct must not be warmed up by any source of heat
- Ventilation grills, if used, must have a free opening of at least 150 cm² incoming air and 200 cm² outgoing air for the new Hipro Absorption and Compressor

Impact of airflow video



Insufficient airflow results in a shortened life span and a reduced cooling performance.
Observe the minimum spacings when installing the minibar to furniture.

SAFES



FROM STANDARD TO PREMIUM

The range of Dometic ProSafe models

Security is an essential requirement for hotel guests, and one of the main reasons for choosing or discarding a destination and a hotel. The Dometic Group, aware of this, is always developing and improving all of its products in order to meet the needs of customers.

The latest product innovation Dometic has launched is a ProSafe range which goes one step further in terms of design, functionality, technology and security. This ProSafe range has a very modern design with a colour display, an illuminated keypad, the latest anti-tampering system and a new website platform which offers the possibility to operate the safe with the strictest security. The elegant cabinets of the new ProSafe generation have rounded corners and edges for enhanced safety. Contemporary design.

- Master key
- LED interior light
- iAudit system – unique in the industry
- Remote Emergency Opening System (REOS 2.0) – ultimate security and user comfort
- Battery level check

Premium Class

Excellence in form and function: Dometic innovations like iAudit tracking and the REOS Remote Emergency Opening System ensure security on all levels.

Standard Class

High security level combined with easy operation for perfect comfort and convenience.

PRODUCT FINDER – THE QUICK WAY TO FIND THE RIGHT PRODUCT

Laser-cut door

Our doors are precisely cut and crafted by a laser beam. This allows us to achieve 100% accuracy in dimensions and an extremely small clearance between the door and casing, making the door impossible to pry open.

Anti-Tamper system

With the anti-tampering system, Dometic offers a unique security feature for their models. All anti-tampering manipulation attempts are recorded in the electronic of the safe and can be tracked back at any time.

REOS code

REOS stands for Dometic's Remote Emergency Opening System. The emergency opening system from Dometic is based on an innovative encoding system. The unique solution combines advanced electronics with state-of-the-art online technology to allow simple yet highly secure emergency opening by authorised hotel staff.

Premium iAudit

All operations effected on a safe must be documented – for your own security and for your insurance provider.

This is where Dometic's Premium iAudit system offers a truly convenient solution: the integrated microchip provides storage capacity for the last 1,000 events.

SAM

The unique Dometic Safe Management System (SAM) allows for iAudit Trail and one time emergency code generation (REOS) from a user friendly but PIN secured internet based software tool.

DOMETIC PREMIUM CLASS SAFES

Protection for more privacy – comfortably and with absolute reliability. With a Dometic Premium Class ProSafe, a hotel room becomes a perfectly private haven for the guest. A safe place for storage, conceived and implemented according to the newest standards. Its innovative and customisable design suits every hotel in a stylish way. Smooth surfaces and rounded edges make it easy to look after and give it long-lasting character. A colour display and the integrated soft-touch keypad make operation easy. And a Premium Class ProSafe also breaks new ground when it comes to protective properties: pioneering technology like the unique iAudit and the anti-tampering system ensure security on all levels. The demand for contemporary security systems with added convenience is supported by special features such as REOS 2.0 software with its emergency code-opening system (optional).

- LED interior light
- Laser-cut door and frame
- iAudit for convenient documentation
- Emergency opening with key and master code
- Remote Emergency Opening System (REOS 2.0) – ultimate security and user comfort (optional)

RESTAURANT & CATERING

Fresh on arrival

For businesses who would like to keep taking orders have two options for cold delivery: a fully refrigerated truck or a mobile alternative. While full vehicle conversions are common, the process can be costly, complex and rely on numerous components from various sources and services. From regular passenger sedans to small delivery vans and mid-sized fleet vehicles our mobile cooling range offers a fast and flexible cold chain alternative that requires little to no installation that can be ready for making deliveries today.

If you're transporting food absolute temperature precision is required. HACCP (Hazard Analysis Critical Control Points) is an internationally binding quality management system for foodstuffs. That's why we provide proven cooling and freezing solutions for a varietyof temperature-sensitive applications.

DOMETIC CFX3

Years of innovation for cooling perfection

Keep your product at the right temperature at all times. We can provide you with a mobile refrigeration solution. Our portable compressor fridge/freezers fit for demanding cooling tasks in harsh environments. Being very powerful they provide excellent cooling performance, even at extremely high ambient temperatures. The CFX3 features durable and lightweight fender frames to protect the fridge/freezer. Strong, spring-loaded aluminium handles make it easy to lift and carry. Adjust the cooling temperature of your CFX3 on the TFT display screen or download the Dometic app and roam free without worry.

- Heavy-duty yet lightweight construction, fender frame protected edges and stainless steel hinges
- CFX3 smartphone app allows temperature control via WiFi or Bluetooth and provides performance history
- Powerful VMSO3 compressor cooling technology
- 3-stage dynamic battery protection system prevents a dead car battery or allows a deep draw on dual batteries
- Generous storage capacity of 25 – 99 l
- Built-in TFT user interface displays operating status

12/24 V

Suitable for solar

230 V

Controlled via Wifi or Bluetooth

CFX3 AWARDS

reddot award 2020 best of the best

Dometic's CFX3 portable fridge/freezer was a winner of the Red Dot Award for Outstanding Design Quality. Jurors comprising of experienced experts from different disciplines from all over the world awarded the CFX3 portable fridge/freezer as a winner thanks to the product aesthetics and its ability to set new design standards in our industry.

GOOD DESIGN AWARD® GOLD WINNER

Dometic's CFX3 Portable fridge/freezer received a prestigious Good Design Award Gold Accolade in the Product Design Domestic Appliances category in recognition for outstanding design and innovation.

2018

Dometic's CFX3 powered fridge/freezer received the caravan industry experts' European Innovation Award in the category of camping equipment. The European Innovation Awards were selected from more than 200 different proposals in 15 categories.

DOMETIC COOL-ICE

Passive coolers in heavy duty quality

Dometic ice boxes feature an extremely effective insulation system. Once filled with ice, they can keep groceries, drinks, fish, and bait fresh for several days. The new facelift models of the popular Cool Ice series are even cooler. Practical accessories like seat cushions, fishing rod holders and bottle openers make them indispensable partners for beach-goers, fishermen, and other adventurers. The modular storage system, consisting of wire baskets and dividers, help to organise food and drink neatly.

- Thick insulation and unique sealing design means ice lasts longer
- Hygienic and easy to clean with large diameter drain plug
- With convenient extended handle and wheels (CI 85W)
- Strong, seamless, food grade polyethylene construction.
- Integrated polyethylene feet
- Practical tie down points below handles
- Integrated hinges with stainless steel rods and durable rubber latches
